SUBJECT INDEX

Volume 80 • 2001

AADR (*see* IADR/AADR)

ABDOMEN
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

ABNORMALITIES
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

ABSORPTION
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

ABSTRACTS
AADR Abstracts, 36
Divisional and Sectional Abstracts, 936, 1684 (*Erratum*), 1868 (*Erratum*)
IADR Abstracts, 527

ACETIC ACID
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

ACETYLCHOLINE
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840

ACID ETCHING, DENTAL
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

ACIDS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

ACRYLIC RESINS
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

ACTINOBACILLUS ACTINOMYCETEMCOMITANS
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695

ACTINOMYCES
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

ACTINOMYCES NAESLUNDII
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

ACTINS
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

ACTIVITIES OF DAILY LIVING
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

ADENOSINE TRIPHOSPHATE
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

ADENOVIRIDAE
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

ADHESIVENESS
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605

ADIPOSE TISSUE
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

ADOLESCENCE
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823

ADRENERGIC ALPHA-ANTAGONISTS
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

ADRENERGIC BETA-ANTAGONISTS
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

ADSORPTION
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

ADULT
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443

AADR (*see* IADR/AADR)

ABDOMEN
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

ABNORMALITIES
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

ABSORPTION
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

ABSTRACTS
AADR Abstracts, 36
Divisional and Sectional Abstracts, 936, 1684 (*Erratum*), 1868 (*Erratum*)
IADR Abstracts, 527

ACETIC ACID
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

ACETYLCHOLINE
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840

ACID ETCHING, DENTAL
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

ACIDS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

ACRYLIC RESINS
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

ACTINOBACILLUS ACTINOMYCETEMCOMITANS
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695

ACTINOMYCES
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

ACTINOMYCES NAESLUNDII
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

ACTINS
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

ACTIVITIES OF DAILY LIVING
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

ADENOSINE TRIPHOSPHATE
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

ADENOVIRIDAE
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

ADHESIVENESS
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605

ADIPOSE TISSUE
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

ADOLESCENCE
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823

ADRENERGIC ALPHA-ANTAGONISTS
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

ADRENERGIC BETA-ANTAGONISTS
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

ADSORPTION
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

ADULT
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443

Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

AGE FACTORS
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443

AGED
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

AGGLUTININS
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

ALCOHOL DRINKING
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486

ALGINATES
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025

ALKALI METALS (*see* Metals, Alkali)

ALKALINE PHOSPHATASE
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742

ALLELES
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695

ALLOYS
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

ALUMINUM OXIDE
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

ALUMINUM SILICATES
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

ALVEOLAR BONE
Collagen fiber orientation affects osteoclastic resorption. Kingsmill, V.J. and Boyde, A., 2085
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075

AMELOBLASTS
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

AMELOGENESIS
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

AMELOGENIN (*see* Dental Enamel Proteins)

AMIDES
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

AMINO ACID SEQUENCE
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385

AMINO ACIDS
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772

P-AMINOPHENYLMERCURIC ACETATE
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545

AMMONIUM COMPOUNDS
Community-based caries control program for pre-school children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071

AMPHOTERICIN B
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

ANALYSIS OF VARIANCE (*see* Statistics)

ANIONS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

ANISOTROPY
Anisotropy of tensile strength of root dentin. Lertchirakarn, V., *et al.*, 453
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321

ANODONTIA
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

ANTI-HIV AGENTS
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414

ANTI-INFECTIVE AGENTS
Confocal microscopy study of undisturbed and chlorhexidine-treated dental biofilm. Zaura-Arite, E., *et al.*, 1436
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

ANTI-INFLAMMATORY AGENTS, NON-STEROIDAL
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

ANTIBODIES
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540

ANTIBODIES, MONOCLONAL
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

ANTIFUNGAL AGENTS
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

ANTIGEN-PRESENTING CELLS
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

ANTIGENS, BACTERIAL
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

ANTIGENS, CD
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

ANTISERA (*see* Immune Sera)

ANXIETY DISORDERS
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588

APOPTOSIS
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

ARECA
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055

AROUSAL
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

ARTERIOLES
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995

ARTHRALGIA
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935

ARTHRITIS, RHEUMATOID
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346

ASCORBIC ACID
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

ASPARTIC ACID
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425

ATROPINE
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995

AUTOANTIBODIES
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711

AUTOCRINE COMMUNICATION
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

AUTONOMIC NERVOUS SYSTEM
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

BACTERIA
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421

BACTERIAL ADHESION
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Contributions of three glucosyltransferases to sucrose-dependent adherence of *Streptococcus mutans*. Ooshima, T., *et al.*, 1672
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

BACTERIAL PROTEINS
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346

BACTERIAL TOXINS
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580

BASE SEQUENCE
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

BASEMENT MEMBRANE
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093

BEHAVIOR (*see* Health Behavior)

BENZOPHENONES
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

BEVERAGES
Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949

BICUSPID
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445

BIOCOMPATIBLE MATERIALS
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925

BIOFILMS
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Confocal microscopy study of undisturbed and chlorhexidine-treated dental biofilm. Zaura-Arite, E., *et al.*, 1436
Validation of an *in vitro* biofilm model of supra-gingival plaque. Guggenheim, B., *et al.*, 363

BIOLOGICAL MARKERS
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

BIOLOGICAL TRANSPORT
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

BIOMECHANICS
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321
Dynamic properties of the human temporomandibular joint disk. Beek, M., *et al.*, 876
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Mass properties of the pig mandible. Zhang, F., *et al.*, 327
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

BIOMEDICAL ENGINEERING
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025

BISPHENOL A-GLYCIDYL METHACRYLATE
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

BISPHOSPHONATES (*see* Diphosphonates)

BITE FORCE
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625

BLOTTING, NORTHERN
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

BLOTTING, WESTERN
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

BODY COMPOSITION
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

BODY MASS INDEX
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

BODY PATTERNING
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968

BONDING, DENTAL (*see* Dental Bonding)

BONE DENSITY
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818
Mass properties of the pig mandible. Zhang, F., *et al.*, 327

BONE FORMATION (*see* Osteogenesis)

BONE MATRIX
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748

BONE MORPHOGENETIC PROTEINS
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968

BONE REGENERATION
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314

BONE REMODELING
Collagen fiber orientation affects osteoclastic resorption. Kingsmill, V.J. and Boyde, A., 2085
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858

BONE RESORPTION
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351

BONE SUBSTITUTES
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748

BONE TRANSPLANTATION
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025

BRAIN-DERIVED NEUROTROPHIC FACTOR
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

BREATH TESTS
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

BROMODEOXYURIDINE
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

BRUXISM
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

CACAO
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000

CALCITONIN
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887

CALCITRIOL
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

CALCIUM
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990

CALCIUM-BINDING PROTEINS
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

CALCIUM COMPOUNDS
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

CALCIUM PHOSPHATES
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

CANDIDA
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

CANDIDA ALBICANS
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421

CAPSAICIN
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

CARBOHYDRATES (*see* Dietary Carbohydrates)

CARBON
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

CARBON DIOXIDE
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

CARBONATED BEVERAGES
Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949

CARBOXYLIC ACIDS
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

CARIOGENIC AGENTS
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

CARIOSTATIC AGENTS
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

CARRIER PROTEINS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

CARTILAGE
Dynamic properties of the human temporo-mandibular joint disk. Beek, M., *et al.*, 876
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

CASEINS
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

CATHEPSINS
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351

CATIONS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

CATS
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

CATTLE
Confocal microscopy study of undisturbed and chlorhexidine-treated dental biofilm. Zaura-Arite, E., *et al.*, 1436
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

CELL ADHESION
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

CELL COMMUNICATION
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887

CELL DEATH
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530

CELL DIFFERENTIATION
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540

CELL DIVISION
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

CELL MEMBRANE
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777

CELL SURFACE
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704

CELLS, CULTURED
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Smokeless tobacco extracts modulate keratinocyte and fibroblast growth in organotypic culture. Wang, Y., *et al.*, 1862

CELLULAR STRUCTURES
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046

CEMENTOBLASTS (*see* Dental Cementum)

CENTRAL NERVOUS SYSTEM
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089

CEPHALOMETRY
Intermittent force in orthodontic tooth movement. Konoo, T., *et al.*, 457

CERAMICS
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

CHEMISTRY, PHYSICAL
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848

CHEWING GUM
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

CHEWING (*see* Mastication)

CHILD
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Guest editorial: Building and involving constituencies with the Surgeon General's Workshop and Conference, 1873
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427

CHILD, PRESCHOOL
Community-based caries control program for preschool children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071

CHILD BEHAVIOR
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459

CHINA
Community-based caries control program for preschool children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Oral health survey in Southern China, 1997, An: preface. Davies, W.I.R., 1451
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

CHLORHEXIDINE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Confocal microscopy study of undisturbed and chlorhexidine-treated dental biofilm. Zaura-Arite, E., *et al.*, 1436
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

CHORDA TYMPANI NERVE
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

CHROMATOGRAPHY, AFFINITY
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

CHROMATOGRAPHY, GEL
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385

CHROMATOGRAPHY, HIGH PRESSURE LIQUID
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385

CHROMOSOME ABERRATIONS
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

CHROMOSOME MAPPING
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

CHROMOSOMES, HUMAN, PAIR 10
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

CITRIC ACID
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

CLINICAL TRIALS
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427

CLONE CELLS
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

CLONING, MOLECULAR
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
pH-regulated secretion of a glyceraldehyde-3-phosphate dehydrogenase from *Streptococcus gordonii* FSS2: purification, characterization, and cloning of the gene encoding this enzyme. Nelson, D., *et al.*, 371

CLONING, ORGANISM
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898

CODON
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898

COHORT STUDIES
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

COLLABORATION (*see* Cooperative Behavior)

COLLAGEN
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
Collagen fiber orientation affects osteoclastic resorption. Kingsmill, V.J. and Boyde, A., 2085
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

COLLAGENASES
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080

COLONIZATION (*see* Bacterial Adhesion)

COLOR
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449

COMMUNICATION NETWORKS (*see* Computer Communication Networks)

COMMUNITY HEALTH SERVICES
Community-based caries control program for preschool children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071

COMMUNITY NETWORKS
Guest editorial: Community-focused partnering. Bolden, A.J., 1960

COMPETITIVE BEHAVIOR
Guest editorial. Kuramitsu, H., 1504

COMPOMERS
Glass-ionomer phase in resin-based restorative materials, The. Tay, F.R., *et al.*, 1808

COMPOSITES
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412
Glass-ionomer phase in resin-based restorative materials, The. Tay, F.R., *et al.*, 1808
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

COMPRESSIVE STRENGTH
Dynamic properties of the human temporomandibular joint disk. Beek, M., *et al.*, 876
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

COMPUTED TOMOGRAPHY (*see* Tomography, X-ray Computed)

COMPUTER-AIDED DESIGN
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

COMPUTER COMMUNICATION NETWORKS
Collaboratories: leveraging information technology for cooperative research. Schleyer, T.K.L., 1508

CONDITIONING (PSYCHOLOGY)
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588

CONDYLE, MANDIBULAR (*see* Mandibular Condyle)

CONNECTIVE TISSUE
From histoalchemy to molecular marvels: a sojourn through periodontal connective tissue research. Bartold, P.M., 305
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461

CONTRACEPTIVES, ORAL, HORMONAL
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011

COOPERATIVE BEHAVIOR
Collaboratories: leveraging information technology for cooperative research. Schleyer, T.K.L., 1508
Guest editorial. Kuramitsu, H., 1504

COPPER
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466

CORONARY DISEASE
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648

CORROSION
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

CORTICOSTERONE
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089

COTININE
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643

CRACKS (*see* Fractures)

CRANIOFACIAL ABNORMALITIES
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

CROSS-OVER STUDIES
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513

CRYSTALLIZATION
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321
High-resolution electron microscopy of the crystallites of fossil enamels obtained from various geologic ages. Kalei, M., *et al.*, 1560
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555

CURING
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570

CYSTS
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945

CYTOKINES
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416

CYTOSOL
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

CYTOTOXICITY
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

DANTROLENE
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990

DATA COLLECTION
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453

DATA INTERPRETATION, STATISTICAL
Analysis of ordinal dental data: evaluation of conflicting recommendations. Cohen, M.E., 309
Kaplan-Meier analysis of dental implant survival: a strategy for estimating survival with clustered observations. Chuang, S.K., *et al.*, 2016

DE-INSTITUTIONALIZATION
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421

DEGLUTITION
Milestones of the transition of my research interests, The: from mastication to ingestion. Yamada, Y., 2043

DEMENTIA
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

DEMINERALIZATION (*see* Tooth Demineralization)

DENTAL ALLOYS
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

DENTAL AMALGAM
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

DENTAL ANXIETY
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588

DENTAL ARCH
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432

DENTAL BONDING
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

DENTAL CALCULUS
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459

DENTAL CARE
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588

DENTAL CARIES
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945
Community-based caries control program for pre-school children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466

Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066
Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

DENTAL CAVITY PREPARATION
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530

DENTAL CEMENTUM
Collagen fiber orientation affects osteoclastic resorption. Kingsmill, V.J. and Boyde, A., 2085

DENTAL ENAMEL
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
High-resolution electron microscopy of the crystallites of fossil enamels obtained from various geologic ages. Kalei, M., *et al.*, 1560
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

DENTAL ENAMEL PROTEINS
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

DENTAL HEALTH SERVICES
Guest editorial: Community-focused partnering. Bolden, A.J., 1960
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

DENTAL HEALTH SURVEYS
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Oral health survey in Southern China, 1997, An: preface. Davies, W.I.R., 1451
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

DENTAL IMPLANTATION, ENDOSSEOUS
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925

DENTAL IMPLANTS
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Kaplan-Meier analysis of dental implant survival: a strategy for estimating survival with clustered observations. Chuang, S.K., *et al.*, 2016

DENTAL OCCLUSION
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990
Milestones of the transition of my research interests, The: from mastication to ingestion. Yamada, Y., 2043
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491

DENTAL PLAQUE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Confocal microscopy study of undisturbed and chlorhexidine-treated dental biofilm. Zaura-Arite, E., *et al.*, 1436
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

DENTAL PLAQUE INDEX
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011

DENTAL PORCELAIN
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758

DENTAL PROSTHESIS, IMPLANT-SUPPORTED
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513

DENTAL PULP
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

DENTAL SCALING
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637

DENTAL SOLDERING
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813

DENTAL STRESS ANALYSIS (*see* Stress, Mechanical)

DENTIN
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Anisotropy of tensile strength of root dentin. Lertchirakarn, V., *et al.*, 453
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

DENTIN-BONDING AGENTS
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

DENTINOGENESIS
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530

DENTINOGENESIS IMPERFECTA
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555

DENTISTRY
Milestones of the transition of my research interests, The: from mastication to ingestion. Yamada, Y., 2043

DENTITION
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625

DENTITION, PERMANENT
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

DENTITION, PRIMARY
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389

DENTURE, OVERLAY
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513

DENTURE, PARTIAL
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491

DENTURE BASES
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

DENTURES
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

DEVELOPMENT (*see* Fetal Development; Growth and Embryonic Development)

DIABETES MELLITUS, NON-INSULIN-DEPENDENT
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690

DIAGNOSIS
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935

DICLOFENAC
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

DIET
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408

DIET, CARIOGENIC
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

DIETARY CARBOHYDRATES
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

DIETARY FIBER
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408

1,25-DIHYDROXYVITAMIN D (*see* Calcitriol)

DIPEPTIDES
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425

DIPHOSPHONATES
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

DISABLED PERSONS
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

DISLOCATIONS
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

DISSECTION
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963

DMF INDEX
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949

DNA
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

DNA, BACTERIAL
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580

DNA, COMPLEMENTARY
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895

DNA DAMAGE
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

DNA SEQUENCE (*see* Base Sequence)

DNA SEQUENCING (*see* Sequence Analysis, DNA)

DOGS
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080

DOSE-RESPONSE RELATIONSHIP, DRUG
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945

DOWN-REGULATION (PHYSIOLOGY)
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

DOXYCYCLIN
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884

DRUG ADMINISTRATION ROUTES
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412

DRUG RESISTANCE, MICROBIAL
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

DURAPATITE
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321
High-resolution electron microscopy of the crystallites of fossil enamels obtained from various geologic ages. Kalei, M., *et al.*, 1560
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Validation of an *in vitro* biofilm model of supra-gingival plaque. Guggenheim, B., *et al.*, 363

E-MAIL (*see* Computer Communication Networks)

EATING
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408

EDUCATION, DENTAL
Milestones of the transition of my research interests, The: from mastication to ingestion. Yamada, Y., 2043

EIKENELLA CORRODENS
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930

ELASTICITY
Dynamic properties of the human temporo-mandibular joint disk. Beek, M., *et al.*, 876
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768

ELDERLY (*see* Aged)

ELECTRIC STIMULATION
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925

ELECTROCARDIOGRAPHY
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648

ELECTROENCEPHALOGRAPHY
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

ELECTROMYOGRAPHY
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443

ELECTRON SPIN RESONANCE SPECTROSCOPY
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

ELECTROPHORESIS, POLYACRYLAMIDE GEL
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Maximum shortening velocity and myosin heavy-chain isoform expression in human masseter muscle fibers. Morris, T.J., *et al.*, 1845

ELECTROPHYSIOLOGY
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

EMBRYO
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840

ENAMEL ORGAN
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

ENAMEL (*see* Dental Enamel)

ENAMELYSIN (*see* Dental Enamel Proteins)

ENDOTHELIAL GROWTH FACTORS
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880

ENDOTHELIUM
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789

ENDOTHELIUM, VASCULAR
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880

ENERGY INTAKE
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408

ENERGY METABOLISM
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849

ENERGY TRANSFER
Dynamic properties of the human temporo-mandibular joint disk. Beek, M., *et al.*, 876

ENZYME-LINKED IMMUNOABSORBENT ASSAY
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Mitogenic effects of neurotrophins on a perio-dontal ligament cell line. Tsuboi, Y., *et al.*, 881

EPITHELIAL ATTACHMENT
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093

EPITHELIAL CELLS
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

EPITHELIUM
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919
Smokeless tobacco extracts modulate keratinocyte and fibroblast growth in organotypic culture. Wang, Y., *et al.*, 1862

EPOXY RESINS
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789

EQUIVALENCY, THERAPEUTIC (*see* Therapeutic Equivalency)

ESCHERICHIA COLI
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346

ESTROGENS
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858

ETHICS, DENTAL
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

ETHNIC GROUPS
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625

EXONS
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898

EXOTOXINS
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580

EXTRACELLULAR MATRIX
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
From histoalchemy to molecular marvels: a sojourn through periodontal connective tissue research. Bartold, P.M., 305
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540

EXTRACELLULAR MATRIX PROTEINS
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

FACIAL BONES
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730

FAMILY TREE (*see* Pedigree)

FATIGUE (*see* Stress, Mechanical)

FATTY ACIDS, NONESTERIFIED
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000

FERMENTATION
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

FERRITIN
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

FERROUS COMPOUNDS
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466

FETAL DEVELOPMENT
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

FIBROBLAST GROWTH FACTOR, BASIC
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

FIBROBLASTS
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Smokeless tobacco extracts modulate keratinocyte and fibroblast growth in organotypic culture. Wang, Y., *et al.*, 1862
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

FIBRONECTINS
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

FINITE ELEMENT ANALYSIS
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

FINLAND
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823

FLOW CYTOMETRY
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

FLUCONAZOLE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

FLUDEOXYGLUCOSE F 18
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849

FLUORESCENT ANTIBODY TECHNIQUE
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476

FLUORESCENT ANTIBODY TECHNIQUE, INDIRECT
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

FLUORESCENT DYES
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

FLUORIDATION
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453

FLUORIDES
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

FLUORIDES, TOPICAL
Community-based caries control program for pre-school children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071

FOCAL ADHESIONS
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

FOOD
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625

FORMALDEHYDE
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

FORSKOLIN
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

FOSSILS
High-resolution electron microscopy of the crystallites of fossil enamels obtained from various geologic ages. Kalei, M., *et al.*, 1560

FRACTURES
Anisotropy of tensile strength of root dentin. Lertchirakarn, V., *et al.*, 453
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758

FURCATION DEFECTS
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075

FUSOBACTERIUM NUCLEATUM
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Validation of an *in vitro* biofilm model of supra-gingival plaque. Guggenheim, B., *et al.*, 363

GALACTOSE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

GALLIUM
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

GELATINASE A
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

GENE EXPRESSION
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

GENE EXPRESSION REGULATION
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351

GENE EXPRESSION REGULATION, DEVELOPMENTAL
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

GENE PRODUCTS, PROTEIN (*see* Proteins)

GENE TRANSFER TECHNIQUES
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

GENES, BACTERIAL
pH-regulated secretion of a glyceraldehyde-3-phosphate dehydrogenase from *Streptococcus gordonii* FSS2: purification, characterization, and cloning of the gene encoding this enzyme. Nelson, D., *et al.*, 371

GENES, DOMINANT
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445

GENETIC PREDISPOSITION TO DISEASE
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914

GENETIC VECTORS
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

GENOTYPE
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

GINGIVA
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)

GINGIVAL CREVICULAR FLUID
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

GINGIVAL INDEX (*see* Periodontal Index)

GINGIVITIS
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011

GLASS
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

GLASS IONOMER CEMENTS
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Glass-ionomer phase in resin-based restorative materials, The. Tay, F.R., *et al.*, 1808
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

GLUCANS
Contributions of three glucosyltransferases to sucrose-dependent adherence of *Streptococcus mutans*. Ooshima, T., *et al.*, 1672

GLUCOSE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

GLUCOSE TRANSPORTER (*see* Monosaccharide Transport Proteins)

GLUCOSYLTRANSFERASES
Contributions of three glucosyltransferases to sucrose-dependent adherence of *Streptococcus mutans*. Ooshima, T., *et al.*, 1672
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000

GLUTAMATES
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736

GLUTATHIONE
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

GLYCERALDEHYDE-3-PHOSPHATE DEHYDROGENASES
pH-regulated secretion of a glyceraldehyde-3-phosphate dehydrogenase from *Streptococcus gordonii* FSS2: purification, characterization, and cloning of the gene encoding this enzyme. Nelson, D., *et al.*, 371

GLYCERYLPHOSPHORYLCHOLINE
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

GLYCIDYL METHACRYLATE (*see* Bisphenol A-Glycidyl Methacrylate)

GLYCOPROTEINS
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704

GLYPICAN
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704

GOLD ALLOYS
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813

GOLGI APPARATUS
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

GRAVITATION
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777

GREAT BRITAIN
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427

GROWTH AND EMBRYONIC DEVELOPMENT
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903

GROWTH SUBSTANCES
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

GUANOSINE TRIPHOSPHATE
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

GUINEA PIGS
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412

HALITOSIS
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

HAPLOTYPES
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

HARDNESS
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

HE-ZHAO DEFICIENCY
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

HEALTH BEHAVIOR
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

HEALTH PLANNING
Guest editorial: National oral health plan, A.: implications and opportunities for research and academia. Mandel, I.D , 2040
Guest Editorial: Opportunity: creating a national oral health plan. Evans, C.A., 1784

HEALTH POLICY
Guest editorial: Building and involving constituencies with the Surgeon General's Workshop and Conference, 1873

HEALTH STATUS
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

HEART RATE
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

HEAT
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813

HEAT CURING
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

HEAT-SHOCK PROTEINS
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346

HEMA (*see* Hydroxyethyl Methacrylate)

HEMIN
Capacity of *Porphyromonas gingivalis* to multiply under iron-limiting conditions correlates with its pathogenicity in an animal model, The. Grenier, D., *et al.*, 1678

HEPARIN
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

HISTATINS
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

HISTOCOMPATIBILITY ANTIGENS
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

HISTOLOGY
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075

HISTOMORPHOMETRY
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925

HISTORY OF DENTISTRY
From histoalchemy to molecular marvels: a sojourn through periodontal connective tissue research. Bartold, P.M., 305
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

HIV-1
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414

HIV INFECTIONS
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602

HLA ANTIGENS
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055

HOMEODOMAIN PROTEINS
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

HUNGARY
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725

HYDROGELS
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025

HYDROGEN-ION CONCENTRATION
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
pH-regulated secretion of a glyceraldehyde-3-phosphate dehydrogenase from *Streptococcus gordonii* FSS2: purification, characterization, and cloning of the gene encoding this enzyme. Nelson, D., *et al.*, 371

HYDROGEN PEROXIDE
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

HYDROGEN SULFIDE
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

HYDROLYSIS
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

2-HYDROXY-4-METHOXYBENZOPHENONES
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

HYDROXYAPATITE (*see* Durapatite)

2-HYDROXYETHYL METHACRYLATE
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

HYDROXYINDOLEACETIC ACID
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854

HYDROXYL RADICAL
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466

HYPODONTIA (*see* Anodontia)

HYPOTHALAMUS
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089

IADR/AADR
AADR Abstracts, 36
"Come on in" [address of the president]. Somerman, M.J., 1593
Dental research—our unique contribution to medical science. Embery, G., 1688
Divisional and Sectional Abstracts, 936, 1684 (*Erratum*), 1868 (*Erratum*)
IADR Abstracts, 527

IGA, SECRETORY
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909

IGG
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914

IMAGE PROCESSING, COMPUTER-ASSISTED
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)

IMAGING, THREE-DIMENSIONAL
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

IMMUNE SERA
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930

IMMUNE SYSTEM
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

IMMUNOBLOTTING
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

IMMUNODOMINANT EPITOPES
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346

IMMUNOFLUORESCENCE ANTIBODY TEST, INDIRECT (*see* Fluorescent Antibody Technique, Indirect)

IMMUNOHISTOCHEMISTRY
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968
Smokeless tobacco extracts modulate keratinocyte and fibroblast growth in organotypic culture. Wang, Y., *et al.*, 1862
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)

IMMUNOPRECIPITATION (*see* Precipitin Tests)

IN SITU HYBRIDIZATION
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

IN SITU NICK-END LABELING
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

INCISOR
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908

INDENTATION
Dynamic properties of the human temporo-mandibular joint disk. Beek, M., *et al.*, 876
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768

INFANT
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

INFANT, PREMATURE
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945

Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

INFANT FOOD
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

INFLAMMATION
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

INFLAMMATION MEDIATORS
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416

INFORMATION SYSTEMS
Collaboratories: leveraging information technology for cooperative research. Schleyer, T.K.L., 1508
Guest editorial. Kuramitsu, H., 1504

INSTITUTIONALIZATION
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421

INSULIN-LIKE GROWTH FACTOR I
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903

INSULIN RESISTANCE
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690

INTEGRINS
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

INTERCELLULAR ADHESION MOLECULE-1
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643

INTERFERON TYPE II
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351

INTERLEUKIN-1
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695

INTERLEUKIN-1 RECEPTOR ASSOCIATED KINASE (IRAK)
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400

INTERLEUKIN-6
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416

INTERLEUKIN-8
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416

INTERLEUKIN-10
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416

INTERNET
Collaboratories: leveraging information technology for cooperative research. Schleyer, T.K.L., 1508

INTRONS
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898

IODINE RADIOISOTOPES
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545

ION CHANNELS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

ION EXCHANGE
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336

IONS
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402

IRON
Capacity of *Porphyromonas gingivalis* to multiply under iron-limiting conditions correlates with its pathogenicity in an animal model, The. Grenier, D., *et al.*, 1678
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466

IRON RADIOISOTOPES
Capacity of *Porphyromonas gingivalis* to multiply under iron-limiting conditions correlates with its pathogenicity in an animal model, The. Grenier, D., *et al.*, 1678

JAPAN
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

JAW
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908

JAW, EDENTULOUS, PARTIALLY
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408

JAW RELATION RECORD
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430

Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437

JOURNAL OF DENTAL RESEARCH
Editor's report, 2000. Herzberg, M.C., 304
Future of "Discovery!", The. Mandel, I. and Herzberg, M., 1507

JUNCTIONAL EPITHELIUM (*see* Epithelial Attachment)

KERATIN
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

KERATINOCYTES
Smokeless tobacco extracts modulate keratinocyte and fibroblast growth in organotypic culture. Wang, Y., *et al.*, 1862

KINEMATICS (*see* Biomechanics)

KNOWLEDGE, ATTITUDES, PRACTICE
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

KUBELKA-MUNK REFLECTANCE THEORY
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449

LACTATE DEHYDROGENASE
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777

LACTIC ACID
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

LACTOBACILLUS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

LACTOCOCCUS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

LAMININ
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093

LASERS
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797

LEADERSHIP
Guest editorial: Building and involving constituencies with the Surgeon General's Workshop and Conference, 1873

LEAST-SQUARES ANALYSIS
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005

LECTINS
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476

LEUCINE
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425

LEUCITE
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336

LEUCONOSTOC MESENTEROIDES
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

LEUCROSE
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

LEUKOCYTE ELASTASE
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

LEUKOCYTES
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789

LEUKOCYTES, MONONUCLEAR
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887

LEUKOPLAKIA, ORAL
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486

LIGANDS
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025

LIGHT CURING
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

LINGUAL NERVE
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

LINKAGE (GENETICS)
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

LIPID BILAYERS
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772

LONGITUDINAL STUDIES
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588

LYMPHOCYTE TRANSFORMATION
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

LYMPHOCYTES
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704

MACACA
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

MACROPHAGE COLONY-STIMULATING FACTOR
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880

MAGNETIC RESONANCE IMAGING
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935

MAGNETIC RESONANCE SPECTROSCOPY
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

MALEATES
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

MALOCCLUSION
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432

MANDIBLE
Mass properties of the pig mandible. Zhang, F., *et al.*, 327
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

MANDIBULAR CONDYLE
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903
Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

MASSETER MUSCLE
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Maximum shortening velocity and myosin heavy-chain isoform expression in human masseter muscle fibers. Morris, T.J., *et al.*, 1845
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443

MASTICATION
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584
Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Milestones of the transition of my research interests, The: from mastication to ingestion. Yamada, Y., 2043
Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

MASTICATORY MUSCLES
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908

MATRIX METALLOPROTEINASES
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

MATRIX PROTEINS (*see* Extracellular Matrix Proteins)

MAXILLOFACIAL PROSTHESIS
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

MEDICINE, CHINESE TRADITIONAL
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

MEDULLA OBLONGATA
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854

MEMBRANE LIPIDS
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

MEMBRANE PROTEINS
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895

MEMBRANES, ARTIFICIAL
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772

MENOPAUSE
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818

MENTAL RETARDATION
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421

MERCURY
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

META-ANALYSIS
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605

METACARPUS
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818

METALLOENDOPEPTIDASES
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

METALLOPROTEINASES (*see* Matrix Metalloproteinases)

METALS, ALKALI
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402

METHACRYLATES
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

METHANEHYDROXYBISPHOSPHONATE
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

METHYLMETHACRYLATES
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

MEXICAN AMERICANS
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625

MICE
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

MICRODIALYSIS
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089

MICROFRACTURES (*see* Fractures)

MICROGLIA
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

MICRONUCLEUS TESTS
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

MICRORADIOGRAPHY
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

MICROSCOPY
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963

MICROSCOPY, ATOMIC FORCE
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768

MICROSCOPY, CONFOCAL
Confocal microscopy study of undisturbed and chlorhexidine-treated dental biofilm. Zaura-Arite, E., *et al.*, 1436

MICROSCOPY, ELECTRON
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

MICROSCOPY, ELECTRON, SCANNING
Anisotropy of tensile strength of root dentin. Lertchirakarn, V., *et al.*, 453
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

MICROSCOPY, ELECTRON, SCANNING TRANSMISSION
Glass-ionomer phase in resin-based restorative materials, The. Tay, F.R., *et al.*, 1808
High-resolution electron microscopy of the crystallites of fossil enamels obtained from various geologic ages. Kalei, M., *et al.*, 1560
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

MICROSCOPY, FLUORESCENCE
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093

MICROSCOPY, LIGHT
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736

MICROSOMES, LIVER
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

MICROSPHERES
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730

MILK, HUMAN
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602

MINERALIZATION (*see* Tooth calcification)

MINERALS
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802

MITOGENS
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

MODELS, BIOLOGICAL
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

MODELS, STATISTICAL
Kaplan-Meier analysis of dental implant survival: a strategy for estimating survival with clustered observations. Chuang, S.K., *et al.*, 2016

MODELS, STRUCTURAL
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321

MODELS, THEORETICAL
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

MOLAR
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530

MOLECULAR BIOLOGY
From histoalchemy to molecular marvels: a sojourn through periodontal connective tissue research. Bartold, P.M., 305

MOLECULAR WEIGHT
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

MONOMERS
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

MONONUCLEAR LEUKOCYTES (*see* Leukocytes, Mononuclear)

MONOSACCHARIDE TRANSPORT PROTEINS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

MORBIDITY
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

MOROCCO
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans.* Haubek, D., *et al.*, 1580

MORPHOGENESIS
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980

MORTALITY
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340

MOTHERS
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

MOTION (*see* Movement)

MOTOR ACTIVITY
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

MOTOR NEURONS
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730

MOUTH
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602

MOUTH, EDENTULOUS
Influence of dentition status on physical disability, mental impairment, and mortality in institutionalized elderly people. Shimazaki, Y., *et al.*, 340
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648

MOVEMENT
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Kinematic modeling of jaw-closing movement during food breakage. Yashiro, K., *et al.*, 2030
Mass properties of the pig mandible. Zhang, F., *et al.*, 327
Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

MUCINS
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584

MUSCARINIC ANTAGONISTS
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

MUSCLE, SKELETAL
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Maximum shortening velocity and myosin heavy-chain isoform expression in human masseter muscle fibers. Morris, T.J., *et al.*, 1845

MUSCLE CONTRACTION
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990
Maximum shortening velocity and myosin heavy-chain isoform expression in human masseter muscle fibers. Morris, T.J., *et al.*, 1845
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

MUSCLE FIBERS
Maximum shortening velocity and myosin heavy-chain isoform expression in human masseter muscle fibers. Morris, T.J., *et al.*, 1845

MUSCLE RELAXANTS (*see* Neuromuscular Agents)

MUTAGENESIS, SITE-DIRECTED
Contributions of three glucosyltransferases to sucrose-dependent adherence of *Streptococcus mutans*. Ooshima, T., *et al.*, 1672

MUTAGENICITY TESTS
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046

MUTAGENS
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

MUTATION
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615
Novel gene locus for agenesis of permanent teeth (He-Zhao deficiency) maps to chromosome 10q11.2, The. Liu, W., *et al.*, 1716

MUTATION, MISSENSE
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

MYELOID DIFFERENTIATION FACTOR 88
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400

MYOSIN HEAVY CHAINS
Maximum shortening velocity and myosin heavy-chain isoform expression in human masseter muscle fibers. Morris, T.J., *et al.*, 1845

NATIONAL HEALTH AND NUTRITION EXAMINATION SURVEY (NHANES III)
Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949

NEOPLASMS
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690

NERVE FIBERS
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476

NERVE GROWTH FACTORS
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

NERVE TISSUE PROTEINS
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389

NEURAL PATHWAYS
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854

NEUROFILAMENT PROTEIN
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476

NEUROMUSCULAR AGENTS
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990

NEURONS
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

NEURONS, AFFERENT
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

NEUROTRANSMITTERS
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730

NEUROTROPHIN 3
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

NEUTROPHILS
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914

Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

NEVUS
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

NEW ZEALAND
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588

NF-KAPPA B
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887

NICOTINIC ACETYLCHOLINE RECEPTORS (*see* Receptors, Nicotinic)

NITRIC OXIDE
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470

NITRIC OXIDE SYNTHASE
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470

NITRO COMPOUNDS
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470

NOCICEPTORS
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

NOREPINEPHRINE
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089

NUCLEOSIDES
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

NUTRITION
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625

NUTRITIONAL STATUS
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408

NYSTATIN
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

OBESITY
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631

OCCLUSAL SPLINTS
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

OCTACALCIUM
High-resolution electron microscopy of the crystallites of fossil enamels obtained from various geologic ages. Kalei, M., *et al.*, 1560

ODONTOBLASTS
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530

ODONTOGENESIS
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

OLIGOPEPTIDES
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

OPTICS
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449

ORAL CAVITY (*see* Mouth)

ORAL HEALTH
Guest editorial: Building and involving constituencies with the Surgeon General's Workshop and Conference, 1873
Guest editorial: Community-focused partnering. Bolden, A.J., 1960
Guest editorial: National oral health plan, A.: implications and opportunities for research and academia. Mandel, I.D., 2040
Guest Editorial: Opportunity: creating a national oral health plan. Evans, C.A., 1784
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral health survey in Southern China, 1997, An: background and methodology. Schwarz, E., *et al.*, 1453
Oral health survey in Southern China, 1997, An: preface. Davies, W.I.R., 1451
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

ORAL HYGIENE
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421

ORAL MUCOSA
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602

ORAL NEOPLASMS
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486

ORAL SUBMUCOUS FIBROSIS
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055

ORGAN WEIGHT
Mass properties of the pig mandible. Zhang, F., *et al.*, 327

ORTHODONTICS, CORRECTIVE
Intermittent force in orthodontic tooth movement. Konoo, T., *et al.*, 457

OSMOLAR CONCENTRATION
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

OSTEOBLASTS
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

OSTEOCALCIN
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

OSTEOCLASTS
Collagen fiber orientation affects osteoclastic resorption. Kingsmill, V.J. and Boyde, A., 2085
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858
Interferon-γ down-regulates gene expression of cathepsin K in osteoclasts and inhibits osteoclast formation. Kamolmatyakul, S., *et al.*, 351
Intermittent force in orthodontic tooth movement. Konoo, T., *et al.*, 457
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

OSTEOCYTES
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461

OSTEOGENESIS
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

OSTEONECTIN
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

OSTEOPONTIN
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742

OSTEOPOROSIS
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858

OSTEOPROTEGERIN
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887

OVARIECTOMY
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858

OXALIC ACID
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

OXIDANTS
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

OXYGEN
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848

PAIN
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476

PAIN MEASUREMENT
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

PAIN THRESHOLD
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935

PALATINOSE
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

PALPATION
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935

PARASYMPATHETIC NERVOUS SYSTEM
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

PARAVENTRICULAR HYPOTHALAMIC NUCLEUS
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089

PAROTID GLAND
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

PARTICLE SIZE
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574

PATCH-CLAMP TECHNIQUES
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

PEDIGREE
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445

PELLICLE
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

PEMPHIGOID, BENIGN MUCOUS MEMBRANE
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711

PEPTIDES
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425

PERIAQUEDUCTAL GRAY
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854

PERIODONTAL ATTACHMENT LOSS
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480

PERIODONTAL DISEASES
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466

Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480

PERIODONTAL INDEX
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648

PERIODONTAL LIGAMENT
Collagen fiber orientation affects osteoclastic resorption. Kingsmill, V.J. and Boyde, A., 2085
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

PERIODONTAL POCKET
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930

PERIODONTITIS
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Immunodominant region of *Actinobacillus actinomycetemcomitans* 40-kilodalton heat shock protein in patients with rheumatoid arthritis. Yoshida, A., *et al.*, 346
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695
Relationship between upper body obesity and periodontitis. Saito, T., *et al.*, 1631
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)

PERIODONTITIS, JUVENILE
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580

PERIODONTIUM
From histoalchemy to molecular marvels: a sojourn through periodontal connective tissue research. Bartold, P.M., 305
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075

PERIOSTEUM
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925

PEROXIDES
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466

pH (*see* Hydrogen-Ion Concentration)

PHARMACOKINETICS
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

PHENOLS
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000

PHENOTYPE
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700

PHENTOLAMINE
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

PHENYLMERCURIC ACETATE
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545

PHORBOL MYRISTATE ACETATE (*see* Tetradecanoylphorbol Acetate)

PHOSPHATES
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

PHOSPHOCREATINE
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

PHOSPHOLIPIDS
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

PHOSPHORYLATION
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

PHOSPHORYLCHOLINE
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

PHOSPHOTYROSINE
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

PHYSICAL STIMULATION
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584
Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600

PIGMENTS
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

PIGS (*see* Swine)

PLATELET-DERIVED GROWTH FACTOR
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665

Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892

POLYETHYLENE GLYCOLS
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

POLYGLUTAMIC ACID
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425

POLYMERASE CHAIN REACTION
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Early-onset periodontitis in Morocco is associated with the highly leukotoxic clone of *Actinobacillus actinomycetemcomitans*. Haubek, D., *et al.*, 1580
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660

POLYMERIZATION CONTRACTION
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570

POLYMERS
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

POLYMETHACRYLIC ACIDS
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

POLYMORPHISM (GENETICS)
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695

POLYMORPHONUCLEAR LEUKOCYTES (*see* Neutrophils)

POLYSACCHARIDES
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

POLYSOMNOGRAPHY
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

PORCELAIN (*see* Dental Porcelain)

PORPHYROMONAS GINGIVALIS
Capacity of *Porphyromonas gingivalis* to multiply under iron-limiting conditions correlates with its pathogenicity in an animal model, The. Grenier, D., *et al.*, 1678
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

POTASSIUM CHANNELS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

POTENTIOMETRY
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

PRECIPITIN TESTS
Autoantibodies to human α6 integrin in patients with oral pemphigoid. Bhol, K.C., *et al.*, 1711
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

PREMATURE INFANTS (*see* Infant, Premature)

PRESSURE
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935

PREVOTELLA NIGRESCENS
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930

PRIMATES
Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075

PROLINE-RICH PROTEINS
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

PROLYLPROLYLGYCYL OLIGOMER
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855

PROPRANOLOL
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

PROSTHESIS DESIGN
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

PROTEASE INHIBITORS
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

PROTEIN KINASES
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during [illegible]ntogenesis. Knight, C., *et al.*, 1895
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968

PROTEIN-TYROSINE KINASE
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

PROTEINS
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Innervation of human tooth pulp in relation to caries and dentition type. Rodd, H.D. and Boissonade, F.M., 389

PROTEOGLYCANS
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704

PTERYGOID MUSCLES
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

QUESTIONNAIRES (*see* Dental Health Surveys)

RABBITS
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

RADIOGRAPHY, DENTAL
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021

RANGE OF MOTION, ARTICULAR
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908

RATS
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854
Cell-interactive alginate hydrogels for bone tissue engineering. Alsberg, E., *et al.*, 2025
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858
Intermittent force in orthodontic tooth movement. Konoo, T., *et al.*, 457
Junctional epithelium around murine teeth differs from gingival epithelium in its basement membrane composition, The. Oksanen, J., *et al.*, 2093
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461
New approach to enhancement of bone formation by electrically polarized hydroxyapatite, A. Teng, N.C., *et al.*, 1925
Occlusal disharmony affects plasma corticosterone and hypothalamic noradrenaline release in rats. Yoshihara, T., *et al.*, 2089
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

RECEPTOR, TRKA
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

RECEPTOR, TRKB
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

RECEPTOR, TRKC
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

RECEPTORS, ANTIGEN, T-CELL, ALPHA-BETA
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

RECEPTORS, CALCITONIN
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887

RECEPTORS, CALCITRIOL
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051

RECEPTORS, CELL SURFACE
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400

RECEPTORS, COMPLEMENT 3B
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

RECEPTORS, CYTOADHESIN
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540

RECEPTORS, DRUG
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

RECEPTORS, FIBRONECTIN
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540

RECEPTORS, GLUTAMATE
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736

RECEPTORS, IGG
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914

RECEPTORS, INSULIN-LIKE GROWTH FACTOR I (*see* Receptors, Somatomedin)

RECEPTORS, INTERLEUKIN
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

RECEPTORS, INTERLEUKIN-1
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416

RECEPTORS, METABOTROPIC GLUTAMATE
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736

RECEPTORS, MUSCARINIC
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995

RECEPTORS, NICOTINIC
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840

RECEPTORS, PURINERGIC P2
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476

RECEPTORS, SOMATOMEDIN
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903

RECEPTORS, SOMATOTROPIN
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903

RECEPTORS, TRANSFORMING GROWTH FACTOR BETA
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968

RECEPTORS, TUMOR NECROSIS FACTOR
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

RECEPTORS, VITAMIN D (*see* Receptors, Calcitriol)

RECEPTORS, VITRONECTIN
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540

REGENERATION
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665

Periodontal regeneration by FGF-2 (bFGF) in primate models. Takayama, S., *et al.*, 2075
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772

REGRESSION ANALYSIS
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021

REMINERALIZATION (*see* Tooth Remineralization)

REPRODUCIBILITY OF RESULTS
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

RESEARCH
Collaboratories: leveraging information technology for cooperative research. Schleyer, T.K.L., 1508
Dental research—our unique contribution to medical science. Embery, G., 1688
Guest editorial. Kuramitsu, H., 1504
Guest editorial: National oral health plan, A.: implications and opportunities for research and academia. Mandel, I.D., 2040

RESEARCH DESIGN
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513

RESINS
Adhesion of N-methacryloyl-ω-amino acid primers to collagen analyzed by ^{13}C NMR. Nishiyama, N., *et al.*, 855
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Glass-ionomer phase in resin-based restorative materials, The. Tay, F.R., *et al.*, 1808
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615
Influence of pulse-delay curing on softening of polymer structures. Asmussen, E. and Peutzfeldt, A., 1570
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

REVERSE TRANSCRIPTASE POLYMERASE CHAIN REACTION
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

RISK FACTORS
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695
Psychological disorder, conditioning experiences, and the onset of dental anxiety in early adulthood. Locker, D., *et al.*, 1588
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823

RNA
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963

RNA, MESSENGER
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

RNA, VIRAL
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414

ROOT CARIES
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

ROOT PLANING
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637

ROOT RESORPTION
Intermittent force in orthodontic tooth movement. Konoo, T., *et al.*, 457

RURAL HEALTH
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

SACCHAROMYCES CEREVISIAE
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

SALIVA
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

SALIVARY GLANDS
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

SALIVARY PROTEINS
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Chewing stimulates secretion of human salivary secretory immunoglobulin A. Proctor, G.B. and Carpenter, G.H., 909
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545

New *in vitro* model for the acquired enamel pellicle: pellicles formed from whole saliva show inter-subject consistency in protein composition and proteolytic fragmentation patterns. Lamkin, M.S., *et al.*, 385
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890
Salivary non-immunoglobulin agglutinin inhibits human leukocyte elastase digestion of acidic proline-rich salivary proteins. Boackle, R.J., *et al.*, 1550

SALIVATION
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484
Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600

SAMPLE SIZE
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513

SAPONINS
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995

SCALING, SUBGINGIVAL (*see* Dental Scaling)

SCANDINAVIA
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

SCATTERING, RADIATION
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555

SCOPOLAMINE
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

SCOTLAND
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

SDS-PAGE (*see* Electrophoresis, Polyacrylamide Gel)

SELF CARE
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

SEMEN
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602

SEQUENCE ANALYSIS, DNA
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314

SEQUENCE DELETIONS
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

SEROTONIN
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730

SEX FACTORS
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491

SEXUALLY TRANSMITTED DISEASES
Oral transmission of HIV, a rarity: emerging hypotheses. Baron, S., 1602

SHEAR BOND STRENGTH
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

SIALOGLYCOPROTEINS
Expression of bone matrix protein mRNAs by primary and cloned cultures of the regenerative phenotype of human periodontal fibroblasts. Ivanovski, S., *et al.*, 1665
Gene expression in a pure population of odontoblasts isolated by laser-capture microdissection. Hoffmann, M., *et al.*, 1963
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314

SIGNAL TRANSDUCTION
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Immunohistochemical evidence for ATP receptors in human dental pulp. Alavi, A.M., *et al.*, 476
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

SILANES
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

SILICON
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848

SILICON DIOXIDE
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

SILVER
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

SILVER NITRATE
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

SKULL
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860

SLEEP BRUXISM
Rhythmic masticatory muscle activity during sleep in humans. Lavigne, G.J., *et al.*, 443
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

SMEAR LAYER
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802

SMOKING
Elevated systemic concentrations of soluble ICAM-1 (sICAM) are not reflected in the gingival crevicular fluid of smokers with periodontitis. Fraser, H.S., *et al.*, 1643
IL-1 genotype and adult periodontitis among young New Zealanders. Thomson, W.M., *et al.*, 1700
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Polymorphisms of the interleukin-1 gene family, oral microbial pathogens, and smoking in adult periodontitis. Laine, M.L., *et al.*, 1695

SOCIOECONOMIC FACTORS
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

SODIUM ASCORBATE (*see* Ascorbic Acid)

SODIUM CHANNELS
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

SODIUM FLUORIDE
Community-based caries control program for pre-school children, A: using topical fluorides: 18 month results. Lo, E.C.M., *et al.*, 2071
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

SODIUM HYPOCHLORITE
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

SORBITOL
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

SPECTROMETRY
Accuracy of Kubelka-Munk reflectance theory applied to human dentin and enamel. Ragain, J.C., Jr. and Johnston, W.M., 449

SPECTROPHOTOMETRY, ATOMIC ABSORPTION
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

SPECTROPHOTOMETRY, INFRARED
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

SPECTRUM ANALYSIS
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565

SPECTRUM ANALYSIS, RAMAN
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802

SPINAL CORD
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854

STATHERINS
Purification of kinase activity from primate parotid glands. Lamkin, M.S. and Lindhe, P., 1890

STATISTICS
Analysis of ordinal dental data: evaluation of conflicting recommendations. Cohen, M.E., 309
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513
Increased frequency of FcγRIIIb-NA1 allele in periodontitis-resistant subjects in an elderly Japanese population. Sugita, N., *et al.*, 914
Kaplan-Meier analysis of dental implant survival: a strategy for estimating survival with clustered observations. Chuang, S.K., *et al.*, 2016
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432
Oral function and diet quality in a community-based sample. Shinkai, R.S.A., *et al.*, 1625
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

STEM CELLS
Incipient analysis of mesenchymal stem-cell-derived osteogenesis. Cooper, L.F., *et al.*, 314

STIMULATION (*see* Physical Stimulation)

STOMATITIS, DENTURE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903

STOMATOCOCCUS MUCILAGINOSUS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

STREPTOCOCCUS
Predominant aciduric microflora of root-caries lesions, The. Brailsford, S.R., *et al.*, 1828

STREPTOCOCCUS GORDONII
pH-regulated secretion of a glyceraldehyde-3-phosphate dehydrogenase from *Streptococcus gordonii* FSS2: purification, characterization, and cloning of the gene encoding this enzyme. Nelson, D., *et al.*, 371

STREPTOCOCCUS MUTANS
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945
Contributions of three glucosyltransferases to sucrose-dependent adherence of *Streptococcus mutans*. Ooshima, T., *et al.*, 1672
Glucosyltransferase inactivation reduces dental caries. Devulapalle, K.S. and Mooser, G., 466
Identification of cariostatic substances in the cacao bean husk: their anti-glucosyltransferase and antibacterial activities. Osawa, K., *et al.*, 2000
Move of adults with mental retardation from institutions to community-based living: changes in the oral microbiological flora. Gabre, P., *et al.*, 421
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

STREPTOCOCCUS ORALIS
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

STREPTOCOCCUS SOBRINUS
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

STRESS, MECHANICAL
Biological organization of hydroxyapatite crystallites into a fibrous continuum toughens and controls anisotropy in human enamel. White, S.N., *et al.*, 321
Dynamic properties of the human temporomandibular joint disk. Beek, M., *et al.*, 876
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)
Three-dimensional finite element analysis of the cartilaginous structures in the human tempo-romandibular joint. Beek, M., *et al.*, 1913
Topographic changes of focal adhesion components and modulation of $p125^{FAK}$ activation in stretched human periodontal ligament fibroblasts. Molina, T., *et al.*, 1984

STRIATED MUSCLES (*see* Muscle, Skeletal)

SUBMANDIBULAR GLAND
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484
Effects of duration and intensity of stimulation on total protein and mucin concentrations in resting and stimulated whole saliva, The. Rayment, S.A., *et al.*, 1584

SUCROSE
Antifungal resistance of candidal biofilms formed on denture acrylic *in vitro*. Chandra, J., *et al.*, 903
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Association of caries activity with the composition of dental plaque fluid. Gao, X.J., *et al.*, 1834
Contributions of three glucosyltransferases to sucrose-dependent adherence of *Streptococcus mutans*. Ooshima, T., *et al.*, 1672
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Sugared soda consumption and dental caries in the United States. Heller, K.E., *et al.*, 1949
Vipeholm Dental Caries Study, The: recollections and reflections 50 years later. Krasse, B., 1785

SULFHYDRYL COMPOUNDS
Spontaneous fluctuations in the concentrations of oral sulfur-containing gases. Springfield, J., *et al.*, 1441

SULFUR-REDUCING BACTERIA
Decrease of sulfate-reducing bacteria after initial periodontal treatment. Langendijk-Genevaux, P.S., *et al.*, 1637

SUPERANTIGENS
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

SURFACE PROPERTIES
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

SURVIVAL ANALYSIS
Kaplan-Meier analysis of dental implant survival: a strategy for estimating survival with clustered observations. Chuang, S.K., *et al.*, 2016
Re-analysis of a caries clinical trial by survival analysis, A. Hannigan, A., *et al.*, 427

SWALLOWING (*see* Deglutition)

SWEDEN
Association of bacterial adhesion with dental caries, The. Stenudd, C., *et al.*, 2005

SWEETENING AGENTS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

SWINE
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Gelatinase A (MMP-2) in developing tooth tissues and amelogenin hydrolysis. Caron, C., *et al.*, 1660
Mass properties of the pig mandible. Zhang, F., *et al.*, 327

SYMPATHECTOMY
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

SYNAPSES
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840

SYNCHROTRONS
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555

SYNDECANS
Cell-surface proteoglycan expression by lymphocytes from peripheral blood and gingiva in health and periodontal disease. Manakil, J.F., *et al.*, 1704

3T3 CELLS
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869

T-LYMPHOCYTES
Large-scale early *in vitro* response to *Actinobacillus actinomycetemcomitans* suggests superantigenic activation of T-cells. Zadeh, H.H., *et al.*, 356

TAIWAN
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055

TEGDMA (*see* Triethylene Glycol Dimethacrylate)

TEMPERATURE
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758

TEMPORAL MUSCLE
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849

TEMPOROMANDIBULAR JOINT
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730
Growth hormone and insulin-like growth factor I receptors in the temporomandibular joint of the rat. Visnapuu, V., *et al.*, 1903
Motion of the human mandibular condyle during mastication. Miyawaki, S., *et al.*, 437
Pressure-pain thresholds and MRI effusions in TMJ arthralgia. Shaefer, J.R., *et al.*, 1935
Three-dimensional active envelope of jaw border movement and its determinants, The. Koolstra, J.H., *et al.*, 1908
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

TEMPOROMANDIBULAR JOINT DISK
Condylar motion in patients with reduced anterior disc displacement. Miyawaki, S., *et al.*, 1430
Dynamic properties of the human temporo-mandibular joint disk. Beek, M., *et al.*, 876
Randomized controlled evaluation of non-surgical treatments for temporomandibular joint anterior disk displacement without reduction. Minakuchi, H., *et al.*, 924

TEMPOROMANDIBULAR JOINT DISORDERS
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990

TENASCIN
Effects of mechanical force on primary human fibroblasts derived from the gingiva and the periodontal ligament. Theilig, C., *et al.*, 1777

TENSILE STRENGTH
Anisotropy of tensile strength of root dentin. Lertchirakarn, V., *et al.*, 453
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813
Improvement of strength parameters of a leucite-reinforced glass ceramic by dual-ion exchange. Fischer, H. and Marx, R., 336
Low magnitude of tensile strain inhibits IL-1β-dependent induction of pro-inflammatory cytokines and induces synthesis of IL-10 in human periodontal ligament cells *in vitro*. Long, P., *et al.*, 1416
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758
Meta-analytical review of factors involved in dentin adherence. Leloup, G., *et al.*, 1605
Reversal of compromised bonding to oxidized etched dentin. Lai, S.C.N., *et al.*, 1919

TETRACYCLINES
Effects of MMP inhibitors on human salivary MMP activity and caries progression in rats, The. Sulkala, M., *et al.*, 1545
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459

TETRADECANOYLPHORBOL ACETATE
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884

THERAPEUTIC EQUIVALENCY
Equivalence testing with dental clinical trials. Burns, D.R. and Elswick, R.K., Jr., 1513

THERMAL EXPANSION
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758

THERMODYNAMICS
Mechanical properties of glass-only porcelains prepared by the use of two feldspathic frits with different thermal properties. Kon, M., *et al.*, 1758

THREE-DIMENSIONAL PRINTING (*see* Imaging, Three-Dimensional)

TIME FACTORS
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Fluoride release from glass ionomer activated with fluoride solutions. Dhondt, C.L., *et al.*, 1402
Sleep bruxism: an oromotor activity secondary to micro-arousal. Kato, T., *et al.*, 1940

TISSUE INHIBITORS OF METALLOPROTEINASES
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080

TITANIUM
Fusing of dental ceramics to titanium. Könönen, M. and Kivilahti, J., 848
New Ti-5Ag alloy for customized prostheses by three-dimensional printing (3DP™), A. Hong, S.-B., *et al.*, 860
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

TOBACCO, SMOKELESS
Smokeless tobacco extracts modulate keratinocyte and fibroblast growth in organotypic culture. Wang, Y., *et al.*, 1862

TOMOGRAPHY, EMISSION-COMPUTED
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849

TOMOGRAPHY, X-RAY COMPUTED
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555
Mass properties of the pig mandible. Zhang, F., *et al.*, 327
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

TONGUE
Developmental changes in the nicotinic acetylcholine receptor in mouse tongue striated muscle. Yamane, A., *et al.*, 1840
Mapping energy metabolism in jaw and tongue muscles during chewing. Rikimaru, H., *et al.*, 1849

TONGUE, FISSURED
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486

TONGUE NEOPLASMS
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884

TOOTH
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968

TOOTH ABNORMALITIES
Characteristics of incisor-premolar hypodontia in families. Arte, S., *et al.*, 1445
Crown morphology and pattern of odontoblast differentiation in lower molars of *Tabby* mice. Lisi, S., *et al.*, 1980

TOOTH ABRASION
Dantrolene counteracts the masseter muscle damage induced by artificial occlusal wear: studies in a rat model. Bani, D. and Bergamini, M., 1990

TOOTH CALCIFICATION
Intrafibrillar mineral may be absent in dentinogenesis imperfecta type II (DI-II). Kinney, J.H., *et al.*, 1555
Osteoblast integrin adhesion and signaling regulate mineralization. Schneider, G.B., *et al.*, 1540
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

TOOTH DEMINERALIZATION
Adhesion to and decalcification of hydroxyapatite by carboxylic acids. Yoshida, Y., *et al.*, 1565
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721
Laser-matrix-fluoride effects on enamel demineralization. Hsu, C.-Y.S., *et al.*, 1797
Molecular structure of acid-etched dentin smear layers—*in situ* study. Spencer, P., *et al.*, 1802
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407

TOOTH DISCOLORATION
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459

TOOTH ERUPTION
Association of *Streptococcus mutans* infection and oral developmental nodules in pre-dentate infants. Wan, A.K.L., *et al.*, 1945
Oral colonization of *Streptococcus mutans* in six-month-old predentate infants. Wan, A.K.L., *et al.*, 2060

TOOTH EXTRACTION
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021

TOOTH GERM
Cloning and characterization of the mouse and human enamelin genes. Hu, J.C.-C., *et al.*, 898
Sonic hedgehog regulates epithelial proliferation and cell survival in the developing tooth germ. Cobourne, M.T., *et al.*, 1974

TOOTH LOSS
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021
Relationship among dental status, nutrient intake, and nutritional status in older people, The. Sheiham, A., *et al.*, 408
Relationship between tooth loss and electrocardiographic abnormalities in octogenarians. Takata, Y., *et al.*, 1648
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491

TOOTH MIGRATION
Movement of teeth adjacent to posterior bounded edentulous spaces. Gragg, K.L., *et al.*, 2021
Occlusal stability in shortened dental arches. Witter, D.J., *et al.*, 432

TOOTH MOVEMENT
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854
Effect of mechanical force on mRNA levels of collagenase, collagen type I, and tissue inhibitors of metalloproteinases in gingivae of dogs, The. Redlich, M., *et al.*, 2080
Effects of vascular endothelial growth factor on osteoclast induction during tooth movement in mice. Kaku, M., *et al.*, 1880
Influences of ovariectomy on experimental tooth movement in the rat. Yamashiro, T. and Takano-Yamamoto, T., 1858
Intermittent force in orthodontic tooth movement. Konoo, T., *et al.*, 457
Mechanical stimulation induces CTGF expression in rat osteocytes. Yamashiro, T., *et al.*, 461

TOOTH REMINERALIZATION
Effect of after-meal sucrose-free gum-chewing on clinical caries. Szöke, J., *et al.*, 1725
Remineralization of caries lesions extending into dentin. ten Cate, J.M., 1407
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

TOOTH ROOT
Anisotropy of tensile strength of root dentin. Lertchirakarn, V., *et al.*, 453

TOOTHACHE
Trend and risk factors of perceived toothache among Finnish adolescents from 1977 to 1997, The. Honkala, E., *et al.*, 1823

TOOTHBRUSHING
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466

TOOTHPASTE
Enamel demineralization *in situ* with various frequencies of carbohydrate consumption with and without fluoride toothpaste. Duggal, M.S., *et al.*, 1721

TRANSCRIPTION, GENETIC
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

TRANSFERRIN
Capacity of *Porphyromonas gingivalis* to multiply under iron-limiting conditions correlates with its pathogenicity in an animal model, The. Grenier, D., *et al.*, 1678
Mercury uptake and kinetics after ingestion of dental amalgam. af Geijersstam, E., *et al.*, 1793

TRANSFORMING GROWTH FACTOR BETA
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

TRANSPORT, BIOLOGICAL (*see* Biological Transport)

TRANSPORT PROTEINS (*see* Carrier Proteins)

TREPONEMA DENTICOLA
Localization of periodontal-disease-associated bacteria in human periodontal pockets, The. Noiri, Y., *et al.*, 1930

TRICLOSAN
Validation of an *in vitro* biofilm model of supragingival plaque. Guggenheim, B., *et al.*, 363

TRIETHYLENE GLYCOL DIMETHACRYLATE
Chemical-biological interactions of the resin monomer triethyleneglycol-dimethacrylate (TEGDMA). Geurtsen, W. and Leyhausen, G., 2046
Distribution and excretion of TEGDMA in guinea pigs and mice. Reichl, F.X., *et al.*, 1412
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615
Metabolic effects of dental resin components *in vitro* detected by NMR spectroscopy. Engelmann, J., *et al.*, 869
Properties of opaque resin composite containing coated and silanized titanium dioxide. Yoshida, K., *et al.*, 864, 1594 (Erratum)

TRIGEMINAL CAUDAL NUCLEUS
Activation of the bulbospinal serotonergic system during experimental tooth movement in the rat. Yamashiro, T., *et al.*, 1854

TRIGEMINAL GANGLION
Vanilloid receptor expression and capsaicin excitation of rat dental primary afferent neurons. Chaudhary, P., *et al.*, 1518

TRIGEMINAL NUCLEI
Effects of post-natal serotonin levels on craniofacial complex. Byrd, K.E. and Sheskin, T.A., 1730

TRIGEMINAL NUCLEUS, SPINAL
Qualitative light and electron microscope study of glutamate receptors in the caudal spinal trigeminal nucleus of the rat. Tang, F.R., *et al.*, 1736
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

TROPOMYOSIN
Mitogenic effects of neurotrophins on a periodontal ligament cell line. Tsuboi, Y., *et al.*, 881

TRYPSIN
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884

TUMOR NECROSIS FACTOR
Association between genetic polymorphism of tumor necrosis factor-α and risk of oral submucous fibrosis, a pre-cancerous condition of oral cancer. Chiu, C.-J., *et al.*, 2055
Dual regulation of osteoclast differentiation by periodontal ligament cells through RANKL stimulation and OPG inhibition. Kanzaki, H., *et al.*, 887
Effects of dental resins on TNF-α-induced ICAM-1 expression in endothelial cells. Kostoryz, E.L., *et al.*, 1789
Interleukin-1 signal transduction—current concepts and relevance to periodontitis. Boch, J.A., *et al.*, 400
Periodontal inflammation and insulin resistance—lessons from obesity. Nishimura, F. and Murayama, Y., 1690
Tumor necrosis factor-α and its receptors, p55 and p75, in gingiva of adult periodontitis. Tervahartiala, T., *et al.*, 1535, 1684 (Erratum)
Tumor necrosis factor modulates fibroblast apoptosis, PMN recruitment, and osteoclast formation in response to *P. gingivalis* infection. Graves, D.T., *et al.*, 1875

TUNEL ASSAY (*see* In situ nick-end labeling)

TYROSINE
Evidence for reactive nitrogen species formation in the gingivomucosal tissue. Lohinai, Z., *et al.*, 470
Impairment of gingival fibroblast adherence by IL-6/sIL-6R. Naruishi, K., *et al.*, 1421

TYROSINE KINASE (*see* Protein-Tyrosine Kinase)

UDMA (*see* Urethane Dimethacrylate)

UP-REGULATION (PHYSIOLOGY)
Expression and regulation of MMP-20 in human tongue carcinoma cells. Väänänen, A., *et al.*, 1884
Growth-hormone-stimulated dentinogenesis in Lewis dwarf rat molars. Young, W.G., *et al.*, 1742
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524

URBAN HEALTH
Coronal and root caries in Southern Chinese adults. Lin, H.C., *et al.*, 1475
Oral health knowledge, attitudes, and practices of Chinese adults. Lin, H.C., *et al.*, 1466
Oral health status and oral health behaviors in Chinese children. Wong, M.C.M., *et al.*, 1459
Oral mucosal lesions in adult Chinese. Lin, H.C., *et al.*, 1486
Periodontal conditions in adult Southern Chinese. Corbet, E.F., *et al.*, 1480
Tooth loss, occluding pairs, and prosthetic status of Chinese adults. Lin, H.C., *et al.*, 1491
Utilization of dental services in Southern China. Lo, E.C.M., *et al.*, 1471

URETHANE DIMETHACRYLATE
Induction of micronuclei *in vitro* by unpolymerized resin monomers, The. Schweikl, H., *et al.*, 1615

VALINE
Preferential utilization of dipeptides by *Porphyromonas gingivalis*. Takahashi, N. and Sato, T., 1425

VASCULAR ENDOTHELIAL GROWTH FACTOR (*see* Endothelial Growth Factors)

VASODILATION
Acetylcholine-induced vasodilation of isolated pulpal arterioles. Yu, C.Y., *et al.*, 1995
Difference in parasympathetic vasodilator and salivary responses in the cat submandibular gland between lingual and chorda-lingual nerve stimulation. Sato, A., *et al.*, 484

VECTORS (*see* Genetic Vectors)

VEILLONELLA DISPAR
Validation of an *in vitro* biofilm model of supra-gingival plaque. Guggenheim, B., *et al.*, 363

VIRAL LOAD
Hyper-excretion of human immunodeficiency virus type 1 RNA in saliva. Shugars, D.C., *et al.*, 414

VIRULENCE
Capacity of *Porphyromonas gingivalis* to multiply under iron-limiting conditions correlates with its pathogenicity in an animal model, The. Grenier, D., *et al.*, 1678

VISCOSITY
Dynamic properties of the human temporo-mandibular joint disk. Beek, M., *et al.*, 876

VITAMIN D
Analysis of vitamin D and Fcγ receptor polymorphisms in Japanese patients with generalized early-onset periodontitis. Yoshihara, A., *et al.*, 2051
Transforming growth factor-β1 and basic fibroblast growth factor modulate osteocalcin and osteonectin/SPARC syntheses in vitamin-D-activated pulp cells. Shiba, H., *et al.*, 1653

VITRONECTIN
Extracellular matrix molecules improve periodontal ligament cell adhesion to anorganic bone matrix. Lallier, T.E., *et al.*, 1748

WATER
Glass-ionomer phase in resin-based restorative materials, The. Tay, F.R., *et al.*, 1808
Nanomechanical properties of hydrated carious human dentin. Marshall, G.W., *et al.*, 1768

WATER FLUORIDATION (*see* Fluoridation)

WEIGHT-BEARING
Three-dimensional finite element analysis of the cartilaginous structures in the human temporomandibular joint. Beek, M., *et al.*, 1913

WEISSELLA PARAMESENTEROIDES
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

WELDING
Effects of heat treatments on mechanical strength of laser-welded equi-atomic AuCu-6at%Ga alloy. Watanabe, I., *et al.*, 1813

WHITE SPONGE NEVUS
Novel mutation in the keratin 13 gene causing oral white sponge nevus, A. Terrinoni, A., *et al.*, 919

WOMEN
Experimental gingivitis in women using oral contraceptives. Preshaw, P.M., *et al.*, 2011
Low metacarpal bone density, tooth loss, and periodontal disease in Japanese women. Inagaki, K., *et al.*, 1818

WOUND HEALING
Gene transfer and expression of platelet-derived growth factors modulate periodontal cellular activity. Zhu, Z., *et al.*, 892
Preparation of and tissue response to DNA-lipid films. Fukushima, T., *et al.*, 1772
Primary and secondary induction of apoptosis in odontoblasts after cavity preparation of rat molars. Kitamura, C., *et al.*, 1530
Tuned aperture computed tomography to evaluate osseous healing. Nair, M.K., *et al.*, 1621

X-RAY DIFFRACTION
Evidence of a critical leucite particle size for microcracking in dental porcelains. Mackert, J.R., Jr., *et al.*, 1574
X-ray diffraction study of acid-degradable glasses. De Maeyer, E.A.P. and Verbeeck, R.M.H., 1764

XENOPUS
Cloning, characterization, and tissue expression pattern of mouse Nma/BAMBI during odontogenesis. Knight, C., *et al.*, 1895
Effects of gallium and mercury ions on transport systems. Moschèn, I., *et al.*, 1753

XYLITOL
Guest editorial: Does chewing explain the caries-preventive results with xylitol? Alanen, P., 1600
Remineralization of enamel subsurface lesions by sugar-free chewing gum containing casein phosphopeptide-amorphous calcium phosphate. Shen, P., *et al.*, 2066

YAMADA, YOSHIAKI
Milestones of the transition of my research interests, The: from mastication to ingestion. Yamada, Y., 2043

YEASTS
Assessment of acid production by various human oral micro-organisms when palatinose or leucrose is utilized. Peltroche-Llacsahuanga, H., *et al.*, 378

ZEBRAFISH
Regulation of tooth development by the novel type I TGFβ family member receptor Alk8. Payne, T.L., *et al.*, 1968

ZOLEDRONATE (*see* Diphosphonates)

ZYMOSAN
Sustained microglial immunoreactivity in the caudal spinal trigeminal nucleus after formalin injection. Yeo, J.-F., *et al.*, 1524
